*some values are rounded off

1 ml (milliliter)=1cc (cubic centimeter)= 0.034 fluid ounces	1 fluid ounce≈30ccs
1liter=0.264 gallons=33.8 fluid ounces	1 quart=32 fluid ounces

Bottle/can shapes & sizes can vary with a given volume. Some names are used to describe different sizes.

Beer bottles/cans come in U.S. (ounces) and metric (mls) volumes.

Liquor and Wine bottles/boxes only come in metric (mls) volumes. A "pint" is not a true U.S. fluid pint.
